

Conflict Minerals Statement (3TG)

HEINZ AUTOMATIONS-SYSTEME GmbH

HEINZ AUTOMATIONS-SYSTEME GmbH is committed to responsible and ethical business conduct throughout its entire supply chain.

We do not intentionally add or use conflict minerals (3TG: tin, tantalum, tungsten, and gold) in the products we manufacture.

However, some of our suppliers provide components that may technically contain 3TG materials, such as drive motors, reduction gearboxes, bearings, or electronic components.

We request our suppliers to disclose the origin of 3TG materials used, in line with the *Conflict Minerals Reporting Template (CMRT)* of the Responsible Minerals Initiative (RMI). The majority of our suppliers have provided corresponding declarations. We continue to actively work toward obtaining complete information from all of our suppliers.

Although HEINZ AUTOMATIONS-SYSTEME GmbH is not directly subject to Section 1502 of the U.S. Dodd-Frank Act, we fully support the objectives of this regulation and international efforts to eliminate the trade of minerals from conflict-affected regions.

Our goal is to ensure that none of our products or materials originate from sources that finance armed groups or contribute to human rights violations.

HEINZ AUTOMATIONS-SYSTEME GmbH supports responsible sourcing of raw materials and expects the same commitment from all partners within our supply chain.
